P R O F I L E

I always was interested in computers and how they work, how everything works on the internet and how to create something like a website or some application. Finally, I have decided to start learning programming and it turns out to be so much fun. By learning more and more about programming and how making things work, passion for programming grew. I have created few small projects, to practice and to improve my programming skills.

E D U C A T I O N

● Technician for pharmaceutical industrial technology

Technical school "23. May"
2007 - 2011

● Web Developer

Self-taught
2020 - present

S K I L L S

- HTML
- CSS
- Javascript
- SQL

P R O J E C T S

● Simple Quiz app

Entertainment

The simple Quiz app was my first project. It is simple, fun and functional. Combination of HTML, CSS and JavaScript making app work smoothly, creating progress bar and saving scores in Local storage.

● Tennis game - basic

Entertainment

Display, position, and moving filled shape manipulation. The ball is moving and bouncing on boundaries. Mouse real-time input and programmed very basic artificial intelligence. Keeping and displaying scores during game play. Defined a win condition and end state of the game.

● Responsive website

Promotion

Simple responsive website - resume. Using HTML, CSS variables and JavaScript DOM.
